❶❷❸❹❺
These numbers correspond to priorities that individual Workforce Investment Boards might consider. Columns 1 and 2 focus on business customers and where the "hot spots" are for business in the region. Columns 3, 4, & 5 are oriented toward meeting the needs of jobseeker customers looking for greatest number of openings, highest wages, or greatest number of current vacancies.

NOTES:

* reflects mfg industry at highest level

** reflects healthcare industry at highest level

** These data are for the 7-county metro area only and do not include Central Minnesota*

QCEW is still 3Q2008, so not reflecting the worst of the recession yet…

Shading reflects highest ranking items in each category
